Subject: Settlement Unacceptable

Hi:

The proposed settlement is far too lenient and entirely unacceptable.

Microsoft, convicted as a predatory monopolist again and again, must pay for its repeated transgressions against consumers.

Far more limits on its conduct, especially tying, must be implemented. A breakup into 3 companies would be satisfactory: operating systems, applications, and internet.

In addition, heavy penalties MUST be assessed, to punish Microsoft's past illegal behavior and to serve as a warning to others contemplating criminal actions against consumers.

Get tough on this criminal!

Thanks,
